CultivationCheck™

Protect Your Brand®

Cannabis is now legal in the majority of states for medical and/or recreational purposes. With U.S. cannabis sales estimated to reach \$32 billion by 2025, safe cultivation and processing is not only smart business, but critical to your brand. Sanitation can make or break your business.

CultivationCheck™ includes the three key elements that growers must have in place to launch a managed sanitation program, with essential training, required documentation and products that are safe and effective for plants and people.

RECOGNIZING YOUR CRITICAL SANITATION NEEDS

From clone to flower, harvest to production, Spartan has you covered.

PRODUCTION

- You need a partner who can help you navigate impending regulations, and can assist with current good manufacturing practices, hazard analysis, and risk-based preventive controls for consumables.

SANITATION

- You need a partner with more than 65 years' experience manufacturing and providing superior specialty chemicals designed to clean and sanitize multiple surfaces, including your grow rooms, production areas, public areas, and more.

HEALTH & SAFETY

- You need a partner who can provide the training and training tools necessary to meet the requirements for safe handling of chemicals. This includes following proper cleaning procedures and government mandated PPE (Personal Protective Equipment) regulations.

THIRD-PARTY AUDITS

- You need a partner who can help you put the right pieces in place to successfully manage, measure and document your Standardized Sanitation Operating Procedures (SSOP) required by third-party audits (MED, FDA and USDA).

✓ TRAIN

Clearly, training is essential for new employees to ensure that your staff understands and masters the proper cleaning and sanitation procedures. At the same time, studies indicate that the effectiveness of training diminishes after 90 days. That is why every managed cleaning and sanitation program should include a quality assurance program that enables supervisors to monitor performance and identify areas for ongoing staff training. Combined, the CleanCheck® Learning Management System and CompuClean® Sanitation Management Software provide managers with the tools and resources to train and monitor sanitation staff to ensure that sanitation protocols are properly executed and maintained.

✓ MANAGE

With the potential for recalls and audits, it is critical to establish a good sanitation schedule and plan complete with documentation for cultivation personnel. Customizable for cultivation growing and processing facilities, CompuClean and the CompuClean mobile app are integral components of the CultivationCheck cleaning program. With CompuClean, sanitation management is simple; enabling you to easily establish master sanitation schedules, perform quality assurance and daily quality inspections, track SSOP compliance, and ultimately ensure bio-security. And because it's cloud-based, you can easily distribute corrective actions and use the full-color, illustrative reports to visually manage your operation.

✓ VALIDATE

You can't manage, what you can't measure. The CompuClean mobile app puts quality inspections at your fingertips and provides digital synchronization and documentation for reporting. A work-logging feature enables sanitation staff to report in realtime where the cleaning took place, who performed it, and what type of service was performed. And the data from CompuClean inspections provides complete documentation that meets the requirements for third-party audits from regulatory agencies.

Employee Training

The CleanCheck LMS provides these bilingual tools:

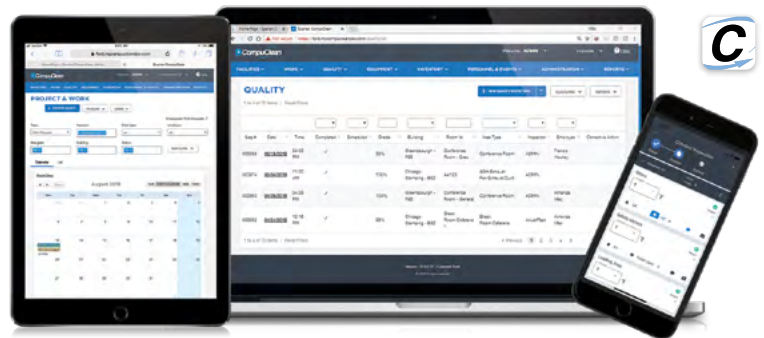

- Web- or DVD-based video tutorials
- Web- or paper-based testing
- Training manual
- Compliance documentation and tracking
- On-the-job cards
- Employee recognition certificates
- SCORM integration with your LMS
- Closed captioning for the hearing impaired

Documentation and Quality Assurance

CompuClean Sanitation Management Software enables:

- Compliance with third-party audits
- Verification of sanitation effectiveness
- Real-time communication for real-time results
- Managing master sanitation schedules and SSOPs
- Managing corrective actions
- Identifying training/employee opportunities

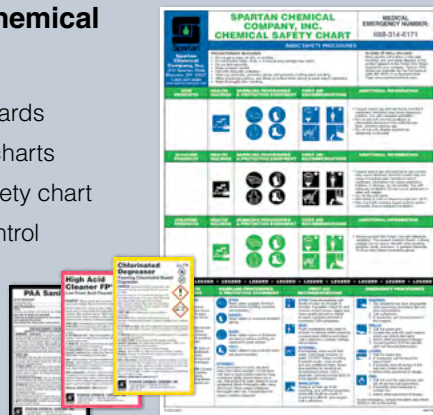

CompuClean

Training made simple

Spartan simplifies chemical storage, plus:

- Laminated product ID cards
- Laminated application charts
- Laminated chemical safety chart
- Color-coded dilution control

We carry a complete inventory of specialty chemical products, so you always have the right product for the job.

CLEANING

Green Solutions® All Purpose Cleaner
Environmentally preferable, all-purpose cleaner.
pH 7.0 – 8.0 ■ 3 – 12 oz./gal. ■ #350105

Chlorinated Degreaser
Foaming, chlorine-based degreaser.
Ⓚ pH 13.0 – 13.5 ■ 6 oz./gal. ■ #308005

High Performance Alkaline FP
Highly concentrated alkaline detergent.
Ⓚ pH 14.0 ■ 2-6 oz./gal. ■ 312605

High Acid Cleaner FP Phosphate Free
Heavy duty cleaner safe for stainless steel tables.
pH <1.0 ■ Dilution Varies ■ #309505

TREE-Z™
Bio-based resin remover.
pH N/A ■ Ready-to-Use ■ #317103

WAREWASH/KITCHEN

SparClean® Pot and Pan Detergent
High-sudsing manual dish detergent.
Ⓚ pH 7.5 – 8.0 ■ 0.25 – 2 oz./gal. ■ #765605

SparClean® Chlorinated Detergent
Concentrated warewashing detergent boosted with chlorine.
Ⓚ pH 13.5 – 14.0 ■ Dilution Varies ■ #765105

HAND HYGIENE

foamiQ® E2
Alcohol-free, triclosan-free, dye-free and fragrance-free.
pH 4.0 – 6.5 ■ #460600

Lite'n Foamy® E3 Hand Sanitizer
Alcohol-free, triclosan-free, fragrance free, anti-bacterial, foaming.
pH 4.0 – 6.5 ■ #334004

SANITIZING

Sani-T-10 Plus®
Sanitizer at 150 – 400 ppm.
Ⓚ pH 7.5 ■ Dilution Varies ■ #315905

PAA Sanitizer
Peroxyacetic acid-based sanitizer/disinfectant.
pH < 1.0 ■ 1:20 – 1:768 ■ #312705

Profect® Alcohol Disinfecting Wipes
One-step cleaning and disinfection.
pH 3.0 – 4.0 ■ #109112

Sani-Tyze®
Ready-To-Use food contact sanitizer.
pH 6.0 – 8.0 ■ Ready-to-Use ■ #319503

LAUNDRY

Clothesline Fresh® Detergent SE 23
Heavy duty enhanced laundry detergent.
pH 10.7 – 11.7 ■ Dilution Varies ■ #702305

Clothesline Fresh® Sour/Softener 9
Fabric softener with pH neutralizing effect.
pH 2.5 – 3.3 ■ Dilution Varies ■ #7009005

Clothesline Fresh® Oxygen Bleach EP 20
Safer Choice certified oxygenated bleach.
pH 4.0 – 5.0 ■ Dilution Varies ■ #702005

CHEMICAL DISPENSING

Foam-It® 20
Powered by compressed air, the Foam-It 20 foamer produces thick, voluminous foam for cleaning and sanitizing operations. A 20-gallon translucent tank, provides extended cleaning capability, as well as visual indication of fill levels. A chemically resistant construction ensures that the Foam-It 20 can dispense even the most aggressive chemicals used in your sanitation operation.
■ #991700

Solvent-Resistant Pump-Up Sprayer
2 liter capacity compressed air sprayer.
■ #989500

GETTING STARTED IS SIMPLE

Contact Spartan 1-800-537-8990 to get in touch with a member of our team.

From there, we'll get started with these three important steps:

- 1 Conduct a FREE comprehensive facility audit to assess your needs
- 2 Help you create your own CultivationCheck Sanitation Program
- 3 Provide tools to train staff, plus manage and validate your program

PROTECT
— YOUR —
BRAND®

A Partner You Can Trust

For more than 65 years Spartan has been serving and supporting the cleaning and sanitation needs of customers across numerous industries, including healthcare, food processing, education, hospitality, breweries and business service contractors. We understand that every business and every environment is unique. The emerging Cannabis industry is no different. Establishing a managed cleaning and sanitation program with Spartan can help Cannabis businesses address the safety and compliance challenges required to thrive in this rapidly expanding market. We've made it our business to help you stay clean and compliant with FDA, MED, and USDA regulations, as well as OSHA standards. Tailored specifically for the Cannabis industry, CultivationCheck is an end-to-end solution comprising unparalleled products, custodial management software and apps, employee training tools, plus customer support that sets the industry standard of excellence.

Spartan — the single source for all your needs

While Spartan Chemical spans 5 continents, our most important location is the one nearest you. Whether your priorities are sustainability, safety, cleaner environments or cost savings, Spartan is ready to provide the service, support and products you need to define and deploy end-to-end solutions tailored to your specific business needs.

- More than 6,000 Account Representatives nationwide
- More than 500 strategically located distributor locations, servicing North and Central America, including the Caribbean
- More than 100 sales professionals who are Master Sanitation Experts
- More than 350 products to meet all your sanitation needs
